

Power Connect Electric is an electrical contracting corporation established in 2018. Since 2018, Power Connect has seen some significant growth, completing upwards of 6 million dollars in contracts last year and obtaining our NYC SBS, Port Authority of New York and New Jersey and New York State WBE certifications. Our qualified staff of electricians, estimators and project managers is dedicated to client satisfaction and on-time project completion. We are licensed, insured and bonded to complete work in the five boroughs of New York City as well as in Suffolk County, NY.

The following are a few areas of our expertise in the industry:

- High and Low Voltage Power Systems (Design, Build and Maintain)
- Power and Control Wiring
- Hospital and Health Care Facilities
- School & Institutional Wiring
- Generator & UPS Systems
- Lighting Retrofits
- Retail Store Fronts
- Category Cabling, Terminations & Certification (Cat5E, Cat6 & Cat6A)
- Site Lighting
- Fire Alarm Systems
- New York City Department of Transportation
- New York City Department of Parks
